ARTURO REYES SANTANA

Programmer Trainee/Junior

PROFILE

University student in the final stages of my degree, I have experience using high-level programming languages, passionate about the Open Source movement and the transmission of knowledge. I have experience working in small teams for basic and medium advanced school projects, I take great care of my good practices in the code, as well as my documentation. Among my attitudes, I consider that I have a lot of creativity, proactivity, ease of speech and responsibility.
